

**Perry Township Schools - S374A230036**

**Recommended Three-year Funding Amount: \$6,432,153.00**

Accelerating Learning and Literacy in Perry Township Schools (ALL) Perry Township Schools (LEA) is applying for a \$6,471,153 Teacher and School Leader Incentive Program grant to improve teaching and learning in our high-need district serving over 16,000 students across 24 with almost 1,000 teachers and over 100 administrators (Absolute Priority 2). Perry Township, located in the Indianapolis metro area, is partnering with National Institute for Excellence in Teaching (non-profit organization) to implement our ALL project (Accelerating Learning and Literacy). The ALL project will strengthen our human capital management system (Absolute Priority 1) and create pathways to a more diverse teaching staff (Competitive Preference Priority 2).

Through this project, Perry Township will develop performance-based compensation to recognize and compensate effective educators and offer them career pathways. This TSL grant proposal will enable Perry Township to address significant learning gaps by improving classroom instruction and building school cultures that support equity, inclusion, and student ownership of their own learning (Competitive Preference Priority 1). Through this grant we will increase student academic achievement by 3% points per year in our state assessment for math and literacy, narrow achievement gaps based in our black and Hispanic subgroups by 10%, increase teacher and school leader effectiveness and retention.
